Public Private Partnership with Government since Year 1999. Course completion certificate will be awarded from Ministry of MSME, Govt. of India

Certificate Course in Organic Farming Business

(Introduction to the organic farming business, What is The Scope of Organic Farming? etc.)

Course Overview (Cost Rs.1600)

Embrace a toxin-free lifestyle by venturing into the realm of organic farming business. As society gravitates towards natural means for healthier living, the demand for chemical-free fruits, vegetables, and oils is on the rise. Organic farming, the practice of cultivating crops without chemical inputs, aligns perfectly with this growing preference.

The surge in the food processing industry's organic offerings and specialized retail businesses underscores the need for standardized production. This demand birthed the organic certification industry.

The organic farming sector is rapidly expanding and is poised for exponential growth. If you aspire to carve your niche in this burgeoning field, our course provides the essential knowledge to establish your own successful organic farming business.
